Step 5: Click on the gear in the upper, right-hand corner you can click on "Edit Profile." Then you can click on "Privacy" and if you select the "Anyone can message me" option, the producers will be able to send you a message letting you know they received your program.

Step 6: To record your program, click "Enter studio."

Step 7: Click on "Podcast

Step 8: Click on "Add New Track" in the Upper, left-hand side of the screen. Choose "Voice and Microphones" for the type of track.

Step 8a: <u>Very important! Check that Soundtrap is using the correct microphone.</u> Look at your "input" (circled in green below) and be sure that it is using your USB or headset mic and not the computer's internal mic. The internal mic is built into the computer and you might have to pull this down and choose your headset mic.
